1. IDENTIFICATION

Product Name: FM-200® (Fire Extinguishing Agent with Expellant)
Other Names: Heptafluoropropane, HFC-227ea

Recommended use of the chemical and restrictions on use
Identified uses: Fire Extinguishing Agent
Restrictions on use: Consult applicable fire protection codes

Company Identification: Kidde-Fenwal, Inc.
400 Main Street
Ashland, MA 01721
USA

Customer Information Number: (508) 881-2000
Emergency Telephone Number: (800) 424-9300
Chemtrec Number: (703) 527-3887 (International)

Issue Date: October 1, 2015
Supersedes Date: April 10, 2015

Safety Data Sheet prepared in accordance with OSHA’s Hazard Communication Standard (29 CFR 1910.1200) and the Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

2. HAZARD IDENTIFICATION

Hazard Classification
Gas under pressure – liquefied gas
Simple Asphyxiant

Label Elements
Hazard Symbols

Signal Word: Warning

Hazard Statements
Contents under pressure; may explode if heated.
May displace oxygen and cause rapid suffocation.

Precautionary Statements
Prevention
Do not enter confined space unless adequately ventilated.
In case of inadequate ventilation wear respiratory protection.
2. HAZARD IDENTIFICATION

Response
None

Storage
Keep container tightly closed.
Protect from sunlight and store in well-ventilated place.

Disposal
None

Other Hazards
Direct contact with the cold gas or liquid can cause freezing of exposed tissues. Exposure to vapor at high concentrations can cause cardiac sensitization and suffocation if air is displaced by vapors.

Specific Concentration Limits
The values listed below represent the percentages of ingredients of unknown toxicity.

<table>
<thead>
<tr>
<th>Component</th>
<th>CAS Number</th>

</table>

Note: The expellant is nitrogen.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Synonyms: Heptafluoropropane
This product is a substance.

4. FIRST-AID MEASURES

Description of necessary first-aid measures

Eyes
Immediately flood the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention if soreness or redness persists.

Skin
Flush with water. Obtain medical attention if frostbite or blistering occurs or redness persists.

Ingestion
Ingestion is not considered a potential route of exposure.

Inhalation
Remove from exposure. If there is difficulty in breathing, give oxygen. Obtain medical attention immediately.

Most important symptoms/effects, acute and delayed
Aside from the information found under Description of necessary first aid measures (above) and Indication of immediate medical attention and special treatment needed, no additional symptoms and effects are anticipated.
4. FIRST-AID MEASURES

Indication of immediate medical attention and special treatment needed

Notes to Physicians
In case of frostbite, place the frostbitten part in warm water. If warm water is not available or impractical to use, wrap the affected parts gently in blankets. DO NOT USE HOT WATER. The use of epinephrine or similar compounds can increase susceptibility to heart irregularities caused by excessive exposure to these types of compounds.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
FM-200® is used as an extinguishing agent and therefore is not a problem when trying to control a blaze. Use extinguishing agent appropriate to other materials involved. Keep containers and surroundings cool with water spray as containers may rupture or burst in the heat of a fire.

Specific hazards arising from the chemical
Containers may explode in heat of fire.

Special Protective Actions for Fire-Fighters
Wear full protective clothing and self-contained breathing apparatus as appropriate for specific fire conditions.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Wear full protective clothing and self-contained breathing apparatus. Remove leaking cylinder to a safe place. Ventilate the area.Leaks inside confined spaces may cause suffocation as vapors may displace air, and should not be entered without a self-contained breathing apparatus.

Environmental Precautions
Prevent the material from being released into the environment.

Methods and materials for containment and cleaning up
Material evaporates.

7. HANDLING AND STORAGE

Precautions for safe handling
Wear appropriate protective clothing. Prevent skin and eye contact.

Conditions for safe storage
Pressurized containers should be properly stored and secured to prevent falling or being knocked over. Do not drag, slide or pressurized containers. Do not drop pressurized containers or permit them to strike against each other. Never apply flame or localized heat directly to any part of the pressurized or plastic container. Store pressurized and plastic containers away from high heat sources. Storage area should be: - cool - dry - well ventilated - under cover - out of direct sunlight
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters
Exposure limits are listed below, if they exist.

1,1,1,2,3,3,3-Heptafluoropropane
None assigned.

Appropriate engineering controls
Use with adequate ventilation. There should be local procedures for the selection, training, inspection and maintenance of this equipment. When used in large volumes or odor becomes apparent, use local exhaust ventilation.

Individual protection measures
Respiratory Protection
Not normally required under conditions of use as a portable fire extinguisher. For other applications creating oxygen deficient atmospheres, use a self contained breathing apparatus, as an air purifying respirator will not provide protection.
Skin Protection
Wear rubber gloves. Avoid contact with skin.
Eye/ face Protection
Chemical goggles or safety glasses with side shields. Avoid contact with eyes.
Body Protection
Normal work wear.

9. PHYSICAL AND CHEMICAL PROPERTIES

Agent – FM-200®
Appearance
Physical State: Liquefied gas under pressure
Color: Colorless
Odor: Slight ether like
Odor Threshold: No data available
pH: Neutral
Specific Gravity: 1.46
Boiling Range/Point (°C/F): -16.4°C/3°F
Melting Point (°C/F): -129.5°C/265°F
Flash Point (PMCC) (°C/F): Not flammable
Vapor Pressure: 540 hPa at -30 ºC
29,360 hPa at 123 ºC
Evaporation Rate (BuAc=1): Not applicable
Solubility in Water: 0.23 g/l at 25°C
Vapor Density (Air = 1): 5.8
VOC (%): Not applicable
Partition coefficient (n-octanol/water): 2289
Viscosity: Not applicable
Auto-ignition Temperature: No data available
Decomposition Temperature: No data available

10. STABILITY AND REACTIVITY

Reactivity
Decomposes on heating. Containers may rupture or explode if exposed to heat.

Chemical Stability
Stable under normal conditions.

Possibility of hazardous reactions
Hazardous polymerization will not occur.

Conditions to Avoid
Heat - High temperatures - Exposure to direct sunlight

Incompatible Materials
Powdered metals (ex. aluminum, zinc, etc.) - strong oxidizing agents – strong reducing agents – strong alkalis

Hazardous Decomposition Products
Oxides of carbon – hydrogen halides – fluorocarbons – carbonyl halides
11. TOXICOLOGICAL INFORMATION

**Acute Toxicity**
**FM-200®**
4 hour LC50(rat) >788,698 ppm
Low Observed Adverse Effect Concentration (LOAEC)/dog : 105000 ppm
Cardiac sensitization
No Observed Adverse Effect Concentration (NOAEC)/dog : 90000 ppm
Nitrogen
Simple asphyxiant

**Specific Target Organ Toxicity (STOT) – single exposure**
**Nitrogen**: Exposure to nitrogen gas at high concentrations can cause suffocation by reducing oxygen available for breathing. Breathing very high concentrations can cause dizziness

**Specific Target Organ Toxicity (STOT) – repeat exposure**
No relevant studies identified.

**Serious Eye damage/Irritation**
Not expected to cause eye irritation based on review of properties of the substance.

**Skin Corrosion/Irritation**
Not expected to cause skin irritation based on review of properties of the substance.

**Respiratory or Skin Sensitization**
**FM-200®**: Not expected to cause skin sensitization based on review of properties of the substance. Did not cause respiratory sensitization in laboratory animals.

**Carcinogenicity**
Not considered carcinogenic by NTP, IARC, and OSHA.

**Germ Cell Mutagenicity**
**FM-200®**: Animal testing and testing on bacterial or mammalian cell cultures did not show mutagenic effects.

**Reproductive Toxicity**
**FM-200®**: Animal testing showed no reproductive toxicity. (Based on data obtained from similar substances.) Animal testing showed no developmental toxicity.

**Aspiration Hazard**
Not an aspiration hazard.

**Other**
**FM-200®**: Cardiac sensitization threshold limit : 730190 mg/m3

12. ECOLOGICAL INFORMATION

**Ecotoxicity**
**FM-200®**
LC50 > 200 mg/l zebra fish 96h
EC50> 200 mg/l Water flea 48h
12. ECOLOGICAL INFORMATION

Mobility in soil
No relevant studies identified.

Persistence/Degradability
Not readily biodegradable.

Bioaccumulative Potential
No relevant studies identified.

Other adverse effects
No relevant studies identified.

13. DISPOSAL CONSIDERATIONS

Disposal Methods
Dispose of container in accordance with all applicable local and national regulations. Do not cut puncture or weld on or near to the container. If spilled, contents will vaporize to the atmosphere.

14. TRANSPORT INFORMATION

Safety Data Sheet information is intended to address a specific material and not various forms or states of containment.

DOT CFR 172.101 Data
Heptafluoropropane, 2.2, UN3296
UN Proper Shipping Name
Heptafluoropropane
UN Class
(2.2) Non-Flammable Gas
UN Number
UN3296
UN Packaging Group
Not applicable
Classification for AIR
Consult current IATA Regulations prior to shipping by air.
Transportation (IATA)
Classification for Water
Consult current IMDG Regulations prior to shipping by water.
Transport IMDG

This section is believed to be accurate at the time of preparation. It is not intended to be a complete statement or summary of the applicable laws, rules, or hazardous material regulations, and is subject to change. Users have the responsibility to confirm compliance with all laws, rules, and hazardous material regulations in effect at the time of shipping.

15. REGULATORY INFORMATION

United States TSCA Inventory
All components of this product are in compliance with the inventory listing requirements of the US Toxic Substance Control Act (TSCA) Chemical Substance Inventory.

Canada DSL Inventory
All ingredients in this product have been verified for inclusion on the Domestic Substance List (DSL).

SARA Title III Sect. 311/312 Categorization
Pressure Hazard
15. REGULATORY INFORMATION

SARA Title III Sect. 313
This product does not contain any chemicals listed in Section 313 at or above de minimis concentrations.

16. OTHER INFORMATION

NFPA Ratings
NFPA Code for Health - 1
NFPA Code for Flammability - 0
NFPA Code for Reactivity - 0
NFPA Code for Special Hazards – None

HMIS Ratings
HMIS Code for Health - 1
HMIS Code for Flammability - 0
HMIS Code for Physical Hazard - 0
HMIS Code for Personal Protection - See Section 8
*Chronic
