

ONYX FirstVision™

Interactive Firefighters' Display

Network Systems

General

ONYX FirstVision™ is a revolutionary wayfinding navigational tool for firefighters and other emergency responders. ONYX FirstVision™, a touch screen, graphically displays critical information on the origin and spread of a fire; allowing firefighters to quickly locate and extinguish the fire.

With ONYX FirstVision™, emergency responders can immediately gather the information needed to accurately pinpoint the source of the fire and the rate at which it's spreading. Crucial information is easy to access with a spatial, graphical depiction of the location of activated detectors and detector sequence of activation for one or multiple buildings. In addition, ONYX FirstVision™ is an interactive interface. It displays CCTV video and a summary of building floor plans with detailed information about the building. Details can include locations for all fire alarm devices; water supplies; evacuation routes; access routes; chemical and structural hazards in the building; and shutoffs for gas, power, and HVAC.

Features

GENERAL

- 19" LCD touch-screen.
- Interfaces to the ONYX® Series panels or NOTI•FIRE•NET (version 5.0 or higher) through the NFN Gateway over Ethernet.
- Compatible with standard and High Speed NOTI•FIRE•NET™
- Supports the following additional languages: Arabic, French (Canadian), Hebrew, Korean, Portuguese, Spanish, and Chinese (Traditional and Simplified).
- Supports multiple Gateways for large networks and campuses.

USER INTERFACE

- Integrates with Honeywell's Rapid Eye™ Multi-Media DVR for CCTV camera viewing.
- Large intuitive display shows building floor plans in a campus footprint with respective active fire alarm devices, water supplies, evacuation routes, access routes, gas, power and HVAC shutoffs, and chemical and structural hazards in the building.
- Detailed information for active devices or critical building icons on the floor plan.
- Easy access to building, emergency contacts, site plan, and alarm event information.
- Able to print screenshots.
- Materials Safety Datasheet (MSDS) attachment.
- User download of event log file.

EVENT NOTIFICATION

- Graphic and text event notification of fire, supervisory, security, and medical events.
- Fast automatic navigation to floors and locations of the emergency events.

7051cov-10.JPG

- First alarm display to identify where the emergency started.
- Time sequence display of activated detectors to track smoke progression.
- Configurable sound notification with silence selection
- Configurable to unlock door based on events

SYSTEM SETUP

- Screen development tool can easily import building floor plan CAD drawings (as a .wmf, .bmp, or .jpg file) and VeriFire® Toolsdatabases.
- Standard icon library indicates fire alarm and critical building devices.
- Ethernet and USB ports available for transferring screen database information.

Specifications

NOTE: Dimensions are subject to change. Contact NOTIFIER for further information.

- **Enclosure Dimensions:** 24.63" W X 22.03" H X 3.47" D (62.5602 cm H x 55.9562 cm W x 8.8138 cm D).
- **Door Dimensions:** 26" W X 22.75" H X 0.4" D (66.04 cm H x 57.785 cm W x 1.016 cm D).
- **Power Requirements:** Regulated, filtered 24 VDC @ 3.0 A via non-resettable power supply, UL Listed for fire-protective signaling use.
- **Temperature Range:** 0°C – 50°C (32°F – 120°F).

Listings and Approvals

These listings and approvals apply to ONYX FirstVision™.

- **UL/ULC Listed:** S5697
- **MEA:** 286-07-E
- **CSFM:** 7300-1525:0103
- **FDNY:** COA#6070

Ordering Information

WARRANTY: This product is warranted for a period of 12 months. The PC and monitors are warranted from date of purchase for a period of 12 months. Please refer to NOTIFIER's Limited Warranty Policy for additional information.

FIRSTVISION-LCD: ONYX FirstVision™ User Interface software and hardware package. Includes 19" LCD touch-screen, Onboard Ethernet, and USB ports. Also includes one software license and screen configuration software (FirstVision-SCT). Does not include backbox, order separately.

FIRSTVISION-ENC: ONYX FirstVision™ backbox enclosure and door.

Additional required components:

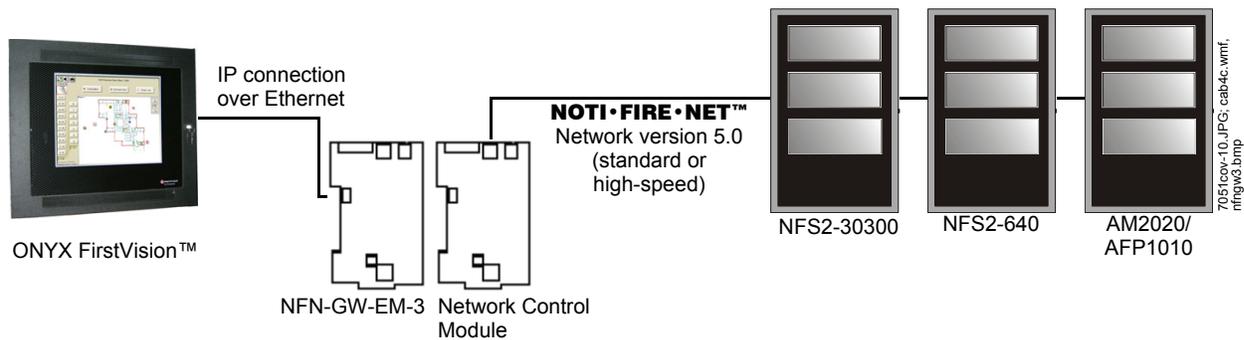

- NOTI•FIRE•NET Gateway (P/N NFN-GW-EM-3 or NFN-GW-PC-xx series).

- NCM-W, NCM-F or HS-NCM/WMF/WSF/MFSF for connection to NOTI•FIRE•NET™.
- Standard Ethernet network cable with RJ45 connectors.
- Standard Ethernet network cable with RJ45 connectors and hub/switch or Standard Ethernet crossover cable
- IBM-compatible PC with Windows® XP and available Ethernet or USB port (used for programming).

Applications

An ONYX FirstVision™ display is an ideal component of a NOTIFIER fire system providing real-time fire system status to firefighters. ONYX FirstVision™ interfaces directly to ONYX Series control panels and an entire NOTI•FIRE•NET network.
